NORTH BRIDGTON.

The Wyomonic Club.

Winter lingering so long and late in the lap of spring, some of the pleasure-loving people of North Bridgton thought they would avail themselves of the opportunity and take in an old-fashioned sleigh ride and supper.

Charles W. Hill and George R. Kimball being chief movers, and as everyone knows, with these two gentlemen at the head whatever the undertaking it is sure to be a success.

Twenty afternoon, April 2d, a jolly party of 20 left en route for the Lake House, Waterford, Me. On reaching South Waterford they were joined by a party of 25 wide-awake citizens.

Arriving at Lake House about 8 o'clock they were greeted with a very warm reception by the host and hostess, Dudley. After removing wraps they were escorted to their spacious music room in the annex, where were 12 tables equipped for whist, each one seating themselves where they chose. Some very smart and interesting games were played.

Mrs. Mell Monroe of Waterford highest score for lady, Frank Hill, North Bridgton, gentleman.

At 6:30 dinner was announced. On entering the commodious dining room a beautiful, appetizing spread greeted the eye. When the proprietors of the Lake House gave a dinner it is always understood to be a good one, and they won much glory through the fame of their tempting cookery.

After dinner, music from the younger ones, both vocal and instrumental, an impromptu dance which caused some merriment, principal participants Mrs. Frank Noble of Waterford and C. W. Hill of North Bridgton. Ella Louise Hill, in her usual pleasing manner, gave two fine selections, also Miss Clifton from Emerson School of Oratory, Boston, who is visiting friends in Waterford, two very cute pieces of music.

After a very enjoyable evening, the ladies were heartily escorted. After a little time in social talk whist was resumed. It might have been an all-night session had not the president pro tem. of Wyomonic club, at 11:30 called, "Please count your rings."

Mrs. Austin Brigham of North Bridgton highest score for lady, William Watson, Waterford highest score for gentleman. All reluctantly rose, saying their good byes and declaring the occasion one of the most delightful and enjoyable of the season.

Portland & Rumford Falls.

This extension is intended to tap the Quebec agricultural section striding into what is known as the Megantic country, in which is located a famous fishing and hunting club which numbers many citizens of Boston among its members.

This road will have its own outlet to the sea, making its terminal at Portland. At present it runs from Oronoque to Rumford Junction. With the idea of gaining more advantageous freight rates for the paper and pulp manufactured in the towns along its route, it will have an individual line to Portland, running practically due south from Poland Springs. Near West Falmouth it will circle to the west of Portland and strike the water front at the south side of the city.

It is stated that the advantage enjoyed by the Great Northern Paper Co. in putting its product on ships at the Stockton Springs terminal of the Bangor & Aroostook road is one of the principal reasons why the Portland & Rumford Falls determined to have its own line to the sea. It is being maintained that, while relations with the Maine Central always have been of the friendliest character, it is impossible for two connecting roads to carry freight to a certain point as cheaply as one.

Flag drill. Twenty-five young ladies

About forty children took part in the entertainment in the presence of their friends, members of the W. R. C. and comrades of the G. A. R. All the parts were well taken. The young orators, John Pottle, Fred Pottle and Forrest Thomas deserve special mention. The flag drill under the direction of Mrs. Mary E. Hazen was especially fine. The young ladies beautifully gowned in white tastefully trimmed with the colors, red, white and blue, went through the evolutions of the drill in perfect step and time. It was a great feature of the occasion. After the exercises dainty refreshments were served by the Corps ladies to the children and about a hundred of their friends assembled.

In these boys and girls of to-day we receive our future citizens and the future defenders of our flag. Let us see to it that they shall learn to be patriotic as one of the great essentials of their education.

Stood the Test.

Allocock's Plasters have successfully stood the test of sixty years' use by the public. Their virtues have never been equalled by the unscrupulous imitators who have sought to trade upon the reputation of Allocock's by making plasters with holes in them, and claiming them to be "just as good as Allocock's."

Allocock's plasters stand to-day indorsed by not only the highest medical authorities, but by millions of grateful patients who have proved their efficacy as a household remedy.

About Meningitis.

The board of health of Biddeford have decided that the attending physician in these cases must report the same as though the disease was small pox. This it seems is in accordance with the recommendation of Dr. A. C. Young, of the Maine state board of health, of Augusta. He further said that, "a reasonable degree of isolation of the patient and also other members of the family, and also necessary, particularly the younger members who attend school or associate with other children, is desired. There should be no public funerals of victims of this disease."

The opinion of physicians vary greatly as to the communicability of the disease, some claiming it to be infectious in character, while others declare it to be contagious.

It is most difficult to cope with, and the fatality is said to be about the largest of any disease in recent years, only about three chances in a hundred for recovery. In view of the fact that so little is really known of the disease, the safer plan to adopt would be to quarantine each case as in the case of known contagious diseases.

Notwithstanding the fact that the disease has been known in this country for 40 years or more the large death rate shows that medical science has not yet gotten it in control. Often if the victim of meningitis recovers with life, he is so injured mentally or physically that he never regains his former mentality or health.

The Paragraph Pulpit.

BY EDWIN A. HUMBALL.

"Blessed is he whose sin is covered."

—Psalm 32:1. These words might have been uttered by Jesus so characteristic are they of his gospel. He made "it one of the joyful works of his life to go to those burdened with the sense of sin and say the word which covered it up. He threw no veil over sins where no burden existed, but uttered "woes" of indignation. But where he saw a life made sad by sorrow for sin, he acted as one touched with the feelings of our infirmities and covered the sin up.

But is it not right to possess an acute sense of sin? Is it not humble to have such consciousness? If so, Jesus had better have left the sinner in his humble sense of sin and not have deprived him of it by taking him to God's arms of love. Jesus is a Saviour from the sense of sin.

But is not repentance sorrow for sin? Yes, at some revival meetings, but not in the Bible. The Bible word means a turning from sin. Some worry their sins like a dog does a dead rat. Come away man, leave your sins alone. The best repentance is to up and act for righteousness and forget you ever had relations with sin. Except you turn from sin and become like little children, trustful in their father's love, in spite of their little faults, you cannot enter God's spiritual kingdom of love.

"What if I fail of my purpose here? It is but to keep the nerves at strain. To dry one's eyes and laugh at a fall, And baffle, get up and begin again. So the chase takes up one's life, that's all."

To Go North Again.

Commander Robert E. Peary, a former Oxford county man, it was stated in New York, Wednesday night, now has the \$20,000 necessary for his coming expedition to the far North and expects to set out about the last of June. Definite arrangements are under way. The Roosevelt, the boat which was designed especially for Arctic exploration, is at the shipyard on Shooter's Island, receiving the necessary repairs.

In it Commander Peary and his party will steam as far North as possible during the coming summer and then will go into winter quarters and conserve their energy for the final dash the following summer. The commander says he firmly believes he will attain his goal this time if the summer of 1908 is a normal Arctic summer.

It's a little singular how differently the owner views the value of his property at the time of the visit of the assessor than during the rest of the year.

WATERFORD.

Mrs. Eliza Ann Perry.

On April 9th occurred the death of Mrs. Eliza Ann Perry, widow of the late Benjamin F. Perry, of Cambridge, Mass., and daughter of Eben and Eliza Bryant Plummer of Waterford. She was spending a few weeks with her cousin, Mrs. M. A. Parker, in Mansfield, Mass., when she was suddenly taken with pneumonia and after five days illness passed away.

For the past five years her home has been with her only child, living, Wm. F. Perry, of Somerville, Mass. The funeral services were held at her home, 70 Cedar street, Somerville, Mass., April 12, at 2:30 p. m. She was born in Waterford, March 21, 1830. The funeral services were conducted by the Rev. J. V. Gar-ton, pastor of West Somerville Baptist church.

The Finishing Touches to Fine Linen.

It is the process of starching that either establishes or destroys the ultimate beauty of a laundered garment. If you would be assured in advance of linen of faultless finish, of beautiful, clear, snowy brightness, of ideal pliability and dirt-resisting properties, use

DURVEAS' Gloss Starch

It has remarkable penetrating power, permeating every thread and fibre of the goods, giving a heavy yet flexible body. Always uniform in strength, always the same in perfect results. Quicker and easier to use, really simplifies starching. Either boil or use with cold water.

Sold by all grocers in full-weight packages.

Church Repairs.
The alterations and repairs of the interior of the Methodist church were finished last week. A handsome enclosed gallery at the right of the pulpit, occupying the space of the former "wing" pews, has been constructed for the choir and the old high gallery has been shut off from the auditorium by a new partition in line with the gallery front. A small job of plastering will prepare the ceiling and walls for the painting, which will take a number of weeks.

Harris Kneeland is seriously ill of an affection of the heart.
Some one has registered sixty snow storms the past winter.

The brown-tail moth nests are more or less distributed in this part of the town. Summer Kimball has been in the village the past week, supplying our families with very fine maple syrup. The price is only \$1 per gallon.

HARRISON.

The Lake Shipping.

The Sebago Steamboat Co., have finished their new wharf at Gray's Landing, opposite the Harrison House. There has arisen a good deal of controversy as to whose land the wharf is built on and Mrs. Willison is now here looking after the matter. The Willisons had contracted with Horace Proctor to build them a summer cottage, but do not care to have it built if the wharf remains where it is now is, as they would not care to have a summer home so near a steamboat landing. At the present writing the matter is still undecided.

The water in Long Lake is so low that it seems doubtful if the boats can be run this summer unless we have heavy spring rains. Taking advantage of the unusually low water a large rock in front of Willis Libby's boat wharf, which is usually submerged, was blown up with dynamite one day last week.

Eben Kneeland has moved into the upper tenement in Wilson Walker's house. Mrs. C. A. Long went to Boston, Friday, for a few days. She will visit her son in Lynn.

Irving Mains and family of Raymond are visiting Mrs. Mains' parents, Mr. and Mrs. Henry Purinton.

Mrs. H. H. Caswell, who has been in a private hospital in Portland for appendicitis, returned home Monday.

Mrs. Brooks and family have arrived from Bermuda and are occupying Crystal Lake Cottage. Mr. Brooks is expected in May.

R. L. Davis and Oscar Tracy, who have been on the sick list for some time, are able to be out. Fred Garland continues very poorly.

Several of those who went to Virginia a month ago have returned, among them Ed Knight of this village. Ted thinks Maine is good enough for him.

There have been many cases of measles, but none have been very severe except the children of Joseph Pitts, who were all quite sick for a week but are recovering now.

Rev. Mr. Wakely from Massachusetts has been engaged as pastor of the Free Baptist church and occupied the pulpit last Sunday, though we understand his pastorate does not begin till May 5th.

The summer schedule of trains on the B. & S. R. R. went into effect the 15th. We now have the early morning train out as usual and the afternoon train in, and get our Boston papers at 4 o'clock instead of 9 p. m.

Our former representative, G. E. Tarbox, has resigned his position as station agent which he has held ever since the road was built here. He goes to Baldwin to engage in the lumber business. Arthur Stanley succeeds him as station agent.

Jessie Tracy lost her gold watch in the big snow storm Tuesday of last week. Thursday afternoon it was found in front of P. P. Bennett's and was not injured in the least by lying in the snow for 48 hours. Jessie was pretty fortunate.

A. S. Kneeland has moved back to his farm for the summer. Mrs. Powers and family have moved to Providence, where they lived before coming to Harrison. S. C. Pitts has moved into the Charles Sampson house on Front street. Charles Pitts, who has been living there, has moved to Naples.

Phil Spaulding, who has been attending business college in Portland, has come home to teach at the academy. Edgar Spaulding, who recently finished the course at Gray's business college, has secured a position as book-keeper at a quarry near Ellsworth.

A dance at Grange hall, Saturday evening, was well attended considering the travelling. Music was furnished by Harry Smith and Victor Bridgton. There will be a grand ball May 1st with music by Lamb's orchestra of six pieces. J. F. Kneeland floor director.

Mrs. Silas Pitts had an attack of heart trouble Friday, and is still quite sick. Bertha Haggood is still confined to the house. Mrs. Anna Dudley is still under the doctor's care. Mildred Dudley went to Augusta, where she has been employed for some time, the last of the week but will return to care for her mother.

Mrs. Dorcas Kneeland celebrated her 80th birthday Thursday the 11th. Although she is well in much of the winter she is quite lame for that age and was able to receive callers. Her first great-granddaughter, the child of Herman Kneeland, has received the name of her great-grandmother, Dorcas Kneeland.

Little Ralph Stearns, about four years old, went into the barber's shop one day last week to get his hair cut. The man in the chair happened to be bald, for which Ralph evidently held the barber responsible. Mr. Lamb, the barber, said to the little boy, "I will soon be through here, Ralph, and then I will cut your hair." "Oh," said Ralph, "but I don't want mine cut bald headed."

SOUTH WOODSTOCK.

Mrs. Mary Andrews is working for Mrs. W. E. Davis.

Mrs. F. E. Davis and Ellis spent Friday at Bryant Pond.

Mrs. Ida Stevens spent Friday with Mrs. A. M. Andrews.

Orville Buck spent several days in Lewiston last week.

Charles Wheeler is stopping at his father's, Elmyr Wheeler's.

Mrs. Mary Denham has visited her daughter, Mrs. Frank York, of Sumner, lately.

Mrs. Reed of Hartford, with her 14 months old baby is working for Mrs. F. L. Wyman.

Victor Bicknell is canvassing for camp stools, chopping knives, nest eggs and other articles.

Mrs. J. H. Davis is having her parlor, sitting room and kitchen newly papered. Josiah Moody of West Paris, is doing the work.

Charles Brooks, who has been working at G. N. Felt's, has gone to Oxford to stay with her sister, Mrs. Amos Barnett, for a while.

Marion Harlowe is through working at Roy Abbott's and will make her home with Mrs. Georgia Hendrickson while attending the Union school.

Winfield Noyes went to Norway last week, returning with a fine span of horses, which he purchased of Guy Curtis. Mr. Noyes will stop with G. E. Stevens this summer.

Job's Comforter Is Here.

George Hazen, our genial lawyer, is suffering at the present time from one of Job's comforters, and it isn't a good idea to sass George too much on entering his parlor.

George Jones spent Tuesday in Lewiston on business.

Walter Holden made a flying trip to Portland, Saturday.

Annie Hazen came home, Wednesday night, to spend Patriots' day with her parents.

C. L. Farnham is again confined to the house with his old trouble, valvular heart disease.

Walter Heslop from Boston is visiting his brother, George, who lives in the Oxford house on Pleasant street.

Grace Farnham came home, Saturday, for a brief visit with her parents, returning to Portland, Sunday night.

Percy Adams, the mainstay in the pitcher's box of the O. B. B. team, will go to Portland to play on Friday, Patriots' day.

Dr. Farris is seen upon the street once more. The doctor has been confined to the house nearly three weeks and shows the effect of his enforced retirement.

Freeman Andrews returned from the Eye and Ear Infirmary last week somewhat improved. Mr. Andrews says he cannot use his eyes but very little in reading.

On Monday last we noticed the following unique notice in George Jones' store door. On one side it read, "Ice cream for sale," on the other side, "We have a fire, come in."

James Walker, who is working for Ed. Fuller at the latter's saw camp, was at home, Sunday. Jim says they have 500 trees tapped and have to work some to gather and boil down the sap.

George H. Jones made a four days' business trip to Portland and Boston last week. We understand Mr. Jones intends to make an addition to his soda and ice cream business this summer.

Floyd Wardwell, Howard Davis and Reggie Robinson finished work in the woolen mill, Saturday night. Floyd will go to Houlton, Reggie thinks of buying a farm, while Howard is undecided what to do.

Monday, two local fishermen caught twenty togue through the ice in Lake Thompson. The ice shows no signs of breaking up and it will undoubtedly be at least May first before the ice leaves the lake.

Mrs. Stephen Jordan, who has been critically ill with valvular heart disease, has so far recovered as to be able to sit up, and if nothing new develops we hope with the coming of warm weather to see her out of doors again.

The rural R. F. D. carriers are having the time of their life just now. Fred Deane, who has been on Monday, April 15th, made his longest trip in point of time. It took him seven hours to cover the route.

Charles McKinnon has engaged with Miss Fisher at the Oxford Spring House. He commenced work Monday last. Mr. McKinnon will have charge of the stable and drive parties to the surrounding places of interest.

Herbert Hopkins, driver of the truck and dairy milk wagon, has a new horse added to his team. Mr. Hopkins now has as fine a looking span of horses as any one around the village.

Francis Holden, who has been confined to his bed for nearly three weeks, is gradually failing. He takes no nourishment now with the exception of a little water. He is growing weaker every day and probably cannot live but a short time.

The Clark-Urban dramatic company have been with us three nights of this week. On Monday night the play, "A Web of Fate," was given. It was enjoyed by all present. It was easily the best troupe that has visited this village for some time. The parts were well rendered, there not being a poor one among the lot. Come again.

Mr. and Mrs. Arthur Bumpus entertained several of their friends at what, Saturday night, was a very pleasant party. Those present were Mr. and Harry Russell from Auburn, Mr. and Mrs. Joseph Lebrake, Mr. and Mrs. Walter Holden, Eliza Bowie and Thomas Coulton. Walter Holden captured first prize, a handsome picture, while Thomas Coulton succeeded in carrying off the booty prize, a pack of cards. Refreshments were served during the evening, and every one pronounced it a jolly good time.

TO THE HOUSE OWNER:-

Last week I wrote concerning the purity of Town & Country Paint. The analysis of which can be found in another column. This showing is not given by the manufacturers, but by the North Dakota experiment station for the purpose of enforcing the laws of Dakota in regard to mixed paints, and as such must be reliable.

There are a number of paints on the market that are pure, viz. lead, oil and zinc for the white, with necessary tints for the colored kinds. There are also numerous paints that are anything but pure, and the adulterations vary from sand to common whitening mixed with water and the cheapest oils to be had. This stuff may be called paint and is fixed up some way, so that it acts and looks like good paint, but whoever buys it gets left, whatever the price. Do you want to pay for ten per cent. water? Do you care to pay for from thirty to fifty per cent. sand, whitening or barytes? Do you imagine that paint in which the pigments contained in a gallon cost only six cents is in any way to be compared to a paint that the pigments cost fifty cents per gallon? Will not the pure paint be cheaper than the adulterated for nothing? It costs as much to put on one as the other and labor is half the expense of painting. Think these things over then come and see what Town & Country Paint is made of.

Tons of this paint have been used by the United States Government within the last two years.

WEST BETHEL.
L. E. Allen and wife visited his sister at the town farm last Sunday.
Ira Lowell and his mother, Mary C. Lowell, are now on the sick list.
George Luxton and family have returned to this village. He is working at the mill.
A. Stahl of Berlin has men here at work, shingling his hotel also the big barn.
Carroll Brown and wife recently called to Bethel to attend the funeral of his mother.
Grace E. Farwell has returned to her position as assistant in the high school in Jefferson, N. H.

Thomas W. Leighton and wife, who have been away all winter, have returned to their home.
Mrs. Herbert Lord went to Norway, recently, and visited her aunt. On her return she shows a new set of teeth.
W. W. Goodridge, with wife and adopted daughter of Gorham, N. H., made a short call in this village recently.
Adrian Grover carries a very pleasant smile on his countenance but we have not as yet heard anything about the cigars.

Edward Hutchins and wife, who have been at Wildwood, N. H., during the winter, have returned to this village. He now works at the mill.
Mary M. Bell, who has been sick with pneumonia for a short time, is now able to be about the house and assist about the housework, but she looks poorly.
Miles O'Reilly, our station agent, is having a short vacation on account of poor health. A relieving agent, Charles O'Reilly, has taken his place during Mr. O'Reilly's absence.

James R. Chandler, whose death recently occurred in Norway, was for many years a resident of this vicinity, and for many years lived on a farm in Fryeburg Academy Grant until failing in health, he has lived with his daughter, Mrs. Harry Seely and family. His remains will be brought here and buried in this village ground beside his wife, who died several years ago.

NOTE.—S. W. Potter, Esq., who has so faithfully reported the local news from this section for many years past, has sent in his resignation as correspondent and agent. Mr. Potter feels it necessary on account of his inability to hear and gather the news as he should. We are sorry to have him leave us, but he feels that he must, and a new correspondent must be had. Will not someone volunteer to send in the news? Address this office—Editor of the ADVERTISER.

GILEAD.

William Morse was in town, Saturday.

BRYANT'S FOND.
Fred T. Stevens.
Fred T. Stevens, long a resident of our village, died suddenly at the home of Arthur C. Ricker, last Thursday evening. He was about 71 years of age. A sister, Mrs. A. C. Ricker, and four daughters survive him. Mrs. Stevens died about two years ago.

Mr. Stevens was born in Maidstone, Vt. He received his education in that state and New Hampshire and later removed to Milton Plantation, where at one time he owned the mill. For upward of thirty years he has been a resident of Bryant's Pond.

He was an unusual man in many ways richly endowed with intelligence and ability; a man of marked inventive genius, the originator of numerous useful patents; a student by temperament, an extensive reader, a philosopher and a broad minded advocate of social reform.

He was a Mason and at one time was connected with the Populist movement. When this declined he continued his political interest in the newer movements.

The funeral will be held at the Ricker home on Wednesday attended by Rev. Lewis E. Pease of Boston, a former pastor here of the Universalist church.

C. L. Heath returned Wednesday to Woodland.

Florence Day returned to her school at Wells Beach, Saturday.

Mr. Floyd, clerk at the hotel, fell Monday and broke his knee cap.

Mr. and Mrs. H. H. Crockett were in Portland, Saturday, on business.

Eugene Hodgdon is in Yarmouth where he has charge of a section job.

Dannie Bryant has left the farm in Greenwood and moved into C. F. Farrar's rent at the village.

The Grand Trunk quarry will start up April 10 for a few weeks. The cut stone will be shipped to Michigan.

Mr. Farnum has been very sick the past few days with the measles. The physician was called in consultation on Tuesday.

Gertie Bolster is working for Mrs. Harry Cole.

Fred Farnum has hired out with James Day and moved his family there.

Mrs. Horatio Bryant is visiting in Dixfield at her sister's, Mrs. Walter Small's.

Charles Hill is spending two weeks in Bethel with his son Edwinton and wife.

Florence E. Bryant is the guest of Mrs. Emily Felt and also visiting her other friends.

Alfreda Brewster of Portland will preach at the Baptist church next Sunday, April 14.

Mrs. Lucy Peabody of Brattleboro, Vt. is the guest of her sisters, Mrs. Frank Cole and Clara Bryant.

The roads are bad which makes it hard for the mail carriers—but they get there just the same.

Summer Sessions is ill and having a doctor. Louisa Cole has been sick for a few weeks but is much better.

Herman Billings has a new manure spreader.

D. O. Dudley is having a cupola made to go on his new barn.

Mr. and Mrs. E. H. Young of Bethel were at David Swan's a few hours last week.

G. Q. Perham has shipped 5,255 quarts of milk from this station in the past four weeks.

Mr. Perham is applying his own family at home. Mr. Perham's choice herd of Holstein cows are well known in Oxford county.

Over fifty members of Franklin grange thrived out Saturday, notwithstanding the terrible conditions of the roads.

NOTE.—The following story with pictures has been printed in several western papers and we give it place here to show what nice things are said of the ladies of our town.—[Editor Norway (Me) ADVERTISER.]

By Katherine Leckie.
(Staff Correspondent of the Reporter.)
Norway, Me., March 9.—Fills, furrows and chaffon do the actual business of this bustling, thriving New England town.

In every line of commerce and finance, trade and profession, the gentler sex of Norway is successfully engaged, and it is the most distinctly "woman's town" in America. The women not only clothe, but shoe the population, but they gracefully preside over meat markets, the post-office and the three hotels.

The women of Norway marry the living and bury the dead. Legal disputes are settled by a feminine justice of the peace. Sick and wounded are administered to by a woman doctor. The countryside is photographed by another woman. For twenty-two years the check at the bank has been cashed by a small woman's white hand, while a quarter of a century is the period that a woman has swayed the morals, opinions and politics of the town through the columns of her paper.

A director in the street railway and the corporation that lights the village is a woman, and she attends each and every meeting of the directors and gets her pay for attendance with and without a printing press to run. The homes of this beautiful little village are real homes.

The S. B. & Z. S. Prince store is not only owned by two sisters, but every thing in the shop is done by women. The only connection that a man can have with this establishment is as a customer.

"It was after I found that I could only earn \$20 a week as a school teacher that I determined upon being a business woman," is the way Miss Prince explains her entrance into the fields of commerce.

But for business women, women must know three things, "is the declaration of this smart business woman made to me. "She must not run her business with a mortgaged stock, she must pay her bills two or three days before they are due thus greatly impressing the people from whom she buys, and then a woman must be dressed well."

Across the street from Miss Prince is a shoe store conducted by Miss Edith Smith. She is a young girl who three years ago inherited her stock from her father.

Mrs. Laura A. Saurborn can set the type, feed the press and set up the copy for the Norway Advertiser as easily as she can write its editorials. Mrs. Saurborn learned the printing business soon after her marriage, 25 years ago.

Women Honest Bankers.
"I was a good adder and that is the way I started in the banking business," is the modest explanation that Cashier Stella B. Pike gives of her association with the Norway National bank. "I soon found out, though, that it took more than an adder of figures to be a banker. But women are especially adapted for the banking business. We are by nature honest and that is the thing that tells in a bank."

If there is a preacher handy and a couple wish to get married, Miss Margaret A. Baker is the one whom the swain seeks. As the justice of the peace she is permitted to perform the marriage ceremony, to acknowledge deeds and administer oaths.

This justice of the peace has a clever younger sister, Miss Jennie P. Baker. She is one of the most capable business women in Norway, managing a large dry goods store, the proprietor of which lives in Portland. Miss Jennie is about 26 years old.

Caring for the dead is one of the necessary things of life. Miss Grace Thayer owns a large undertaking establishment and is licensed as an undertaker.

She's Town Doctor.
For eight years Dr. Annett Bennett has been the town physician. She is appointed by the board of selectmen, which body is made up entirely of the women of the town. There are a number of men doctors in Norway who each year

apply for this official medical office. Dr. Bennett is the first and only woman in the state of Maine holding the position of town physician.

The walls of the studio of Minnie P. Libby are covered with such fine examples of photography that her art should have a national reputation, the hotel women of this place are noted far and near. Martha C. Whitmarsh came to be the proprietor of the Elm House. She delights to tell of the times 40 years ago, when the stage, with four, dashed up to her tavern door. Mrs. Lizzie Woodman is proprietor of the Beal's house. Her sister, Mrs. Ella Tibbets, was also a hotel keeper, but she has retired rich.

When Postmaster Charles S. Akers received his appointment from President Roosevelt a short time ago, he, in turn, appointed two women as his assistants, a thing his predecessor had not done. Mrs. Effie Akers is the helpmate in federal duties as well as in matrimony of the postmaster. While Ellis Swan is the second assistant in the office, Mrs. Alice L. Nash is a licensed taxidermist. She was taught her profession by her husband after she was married.

Woman Butcher, Also.
One of the biggest butcher shops in Norway is run by Mrs. Owen P. Brooks, whose husband insists that he never made money until his wife went behind the counter.

Mrs. Cora Briggs has composed and published a number of songs, both the words and the music being written by her.

Mrs. Gertrude Allen, ably assisted by Miss Elizabeth Colby, makes hats for her sisters in town and in the country. Mrs. Rose Powers is another seller and designer of hats.

There are a couple of women among this large group of money makers who are simply to the growing of their fortunes. Miss Elizabeth B. Beal is a director in the Norway & Paris Street Railway company, and she is also a director in the corporation that operates the electric lighting and power for the village and adjacent land.

There is little or no crime in Norway. The town has not a saloon, and liquor is not even sold on the corner. The men do smoke, but the women are hoping that the time will come, and come soon, when the use of tobacco will not be indulged in by the voting population.

When Lost in the Woods.

"What should you do if lost in the woods?" You are taking the civil service examinations for government service used to find this question a favorite. Later, most of them have had more than one occasion to put their answers to a practical test.

One of the most common experiences of people who go to the woods is to stray away from the trails and familiar landmarks and lose their bearings. Every year brings its quota of stories of lost men and women, of search parties organized, of days spent in fruitless quest and perhaps the finding of the lost ones in wretched condition, ragged, starved, sometimes temporarily insane from the fright and hardships. Such experiences as these are usually due to panic. They seldom happen to the man who is able to act with calmness and judgment.

Summer visitors to the woods are peculiarly likely to be lost, but so are people who are accustomed to living in the woods. No man in a wild country is altogether certain when he goes to the woods that he will find his way back without difficulty, no matter how many times he has been over the same ground. A snow, fire, even a windfall in the forest, may have obliterated his guide marks and changed utterly the appearance of things.

Every man who goes into the woods should make up his mind that in case he is lost he will observe a few simple, common sense rules of conduct. In the first place he should resolutely refuse to be frightened. The immediate effect of the discovery that one is lost usually completes demoralization. The victim falls into a panic of fear and wants to extricate himself immediately. He runs about in all directions, heedless of the fact that what little sense he had left is completely gone. Avoid that.

If you should miss your trail or be in doubt as to your whereabouts, the best course is first to sit down where you are and think over the situation. It is not a serious affair; be assured of that. There are few regions in this country where a man is not within a day's walk of some settlement, and if the season be summer, you have nothing to fear.

Consider the matter calmly, use your memory and your reason. Make up your mind about the proper direction to follow, then take your course and refuse to change it without good and sufficient cause. Don't hurry; take time and when you feel exhausted stop and rest. Don't try to travel at night.

A night spent out of doors in the summer doesn't hurt anybody. If you have no lost the sense of direction that you cannot make up your mind what course to take, it is usually best to follow a stream. In a rough country there is almost always flowing water. Streams always lead to settlements.

The way may be long and the "going" tortuous, but stick to your stream and it will bring you out. Keep an eye on the sun, if it is out, and get your direction from it. Study the contours of the hills and mountain, the appearance of the trees and of the stream. Try to find something familiar. Don't look for moss on the trees to determine your direction. It is not a safe guide.

Don't throw away food or clothing in order to travel faster. You will probably need both. Keep your confidence. When everything is gone, hold on to that. Getting lost in the woods is, after all, under certain restrictions, a rare kind of sport. There is certainly excitement enough about it to stir the most jaded, with plenty of opportunity for the exercise of coolness and common sense.

Ten Weeks to Haying Time.
The few small spots of bare ground are again hidden under two feet of snow, and only ten weeks till haying. With what courage our brothers mend up the rakes and sharpen the scythes to be in readiness!

Chas. Berry and family will soon move to New Hampshire.

Mrs. Etta Whitcomb is visiting her daughter, Mrs. Lillie Hobson. Annie York is staying a few days with her aunt, Mrs. George Elliott.

Odd Fellows' Sunday will be observed with appropriate exercises, April 28.

Mrs. Katie Saunders is ill and Mrs. Sumner Grover is taking care of her.

Rev. G. P. Fuller went to Norway, Monday, and called on Mr. and Mrs. John F. Rice. Mrs. Rice, who has been quite ill, is slowly improving.

Work is rushing at the mills. Many hundred cords of bolts will soon be made into dowels and boxes. Harry Brown's mill, so badly damaged in the great wind of March 21, is being repaired.

It would be hard to find a smarter boy than Hugh Bethell, all these weeks of

his vacation he has driven four horses to Norway, getting up every morning at four or five o'clock and helping load the heavy team. He is only fourteen and very small of his age.

The schools are to begin the last Monday in April. May Knight of Bridgton, in the grammar and Ida Holt in the primary. After a vacation of fifteen weeks, the scholars must be rejoiced at a small chance to go to school. Of very truth we are going back to primitive times, when a six weeks' school was considered as something to be very thankful for. Let us be thankful for a six weeks' school, for truly, the State Law is something to be proud of.

Rice Neighborhood.

M. M. Hamlin was around taking inventory, last week.

Harland Cutter of Harrison, was at B. W. Rice's, last week.

Earmarks of a successful Farmer.
Leroy White of Allen Hill has just purchased a pair of three-year-old steers from Charles Davis. Master Wilkie, who is only 13 years of age, not only does the chores around the house but saws the wood, and also syrup for the tap some trees and a neighbor who cares for the family and any neighbor who cares for it. Young Mr. Wilkie has the earmarks of a citizen worth having in town. Wish there were more of them.

George Jones was in Portland on business, Tuesday.

George Hazen reports a rush in the real estate business.

Dr. Holden has moved into his new office in Robinson block.

Mrs. Stephen Jordan, who has been ill for many weeks, is slightly improved.

Winfield Gammon sold two of his work horses last week to J. L. Flagg of Auburn.

Bessie Newport will have charge of the Poland Springs school during the next term.

Mrs. William Farris of Gorham, N. H., is visiting her nephew, Dr. Farris of High street.

The tug are doing better on Lake Thompson than at any time during the season, four fishermen taking twenty-seven from the water one afternoon.

Charles Andrews lost a fine work horse, Thursday of last week. This makes three horses Mr. Andrews has lost during the last eighteen months.

Mrs. Henry O. Hatch, who has been taking care of her mother, Mrs. I. M. Keith, at the Lake View hotel, returned to her home in Littleton, N. H., Tuesday.

The sewer connecting with several of the cellar drains on High street became filled up and Merrill Brackett has had a hard time opening the sewer for business.

Daniel S. Richmond accompanied by his mother left for Lowell, Mass., last week. Mr. Richmond has no situation, at present but hopes to be able to locate near Boston.

Dr. Farris, who has been confined to the house during the last two weeks with bronchitis, is gradually improving and will soon be able to hike over the muddy roads.

C. D. Robinson, representing L. T. Investment brokers, is in town. Mr. Robinson has a line of low priced stocks, bonds, securities and a large amount of real estate.

Our young bakers report their business is increasing. They run a cart to Mechanic Falls twice a week, and on May first they intend to begin running to Norway and South Paris twice every week.

During the night of April 5th, the anchor ice gathered so thickly that it completely blocked the water wheel at the woolen mill, in consequence of which the help enjoyed a forced vacation, Saturday.

The last few days have been good for the sugar makers, and many people have visited the camps of Eugene Burns and Ed. Fuller to watch the operation of boiling down the sap, and incidentally be in at the sugaring off.

Monday night about eight inches of damp snow fell and Tuesday morning there was a hurried call for runners. Many who had put away their sleighs, thinking the good old summer time had come, were heard talking to themselves and it sounded like "D—such weather."

Grand Vice Chancellor Plummer of Bath and Keeper of Records and Seals Ricker of Portland visited Craigie Lodge, K. of P., Tuesday evening of last week. The third degree was conferred upon Martin, and a supper of hot rolls and maple syrup, cake and coffee followed.

Who should know this country what are, Remember, the success each individual remedy existence is at stake. Can you are buying the best? Here are three products

REXALL "63" HAIR TONIC

The famous Rexall "63" Hair Tonic is composed in chief of Resorcin, Beta Naphthol and Filocarpin.

Resorcin is one of the latest and most effective germicides discovered by a science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which not only destroys the germs which rob the hair of its nutriment, but creates a clean and healthy condition of the scalp, which prevents the lodgment and development of new germs.

Filocarpin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. It is not coloring matter or dye—it produces its effect by stimulating the scalp and hair follicles to health and active life.

This combination of actives mixed with alcohol as a stimulant, perfects the most effective remedy for hair and scalp troubles known to-day. Per Bottle, 50c.

BEST OF SEPARATORS

Actually Free of Cost.

This is really the fact in the purchase of a DE LAVAL CREAM SEPARATOR. Any reputable person may buy a DE LAVAL machine on such liberal terms that the machine actually pays for itself.

And it not only does this the first few months, in which it saves its cost, but goes on doing it for fully twenty years to come. In the face of these facts buying trashy "cash-in-advance" separators, or any other than the best is penny wise, dollar foolish. Such machines quickly lose their cost instead of saving it, and then go on losing instead of saving.

There is no possible reason why any buyer of a Cream Separator should be content with less than the DE LAVAL and there never was a more promising time to make this most profitable of all farm investments.

Why not send for catalogue and particulars?

When you are told that the glasses being sold for \$5.00 to \$12.00 cost more or are a better grade than those sold by Hills, the optician, for \$2.50 and \$3.00 you are being told a falsehood. Honest prices at Hills'.

A lady representing Curtis & Moore of Boston will be at the meeting of F. A. Shurtliff & Co., South Paris, next Monday, Tuesday and Wednesday, April 22, 23 and 24, to demonstrate the merits of the famous Revere chocolates, give out samples and sell to all who wish to purchase. Be sure and attend. See ad on page 8 of this paper.
